

EXEMPLAR PROBLEMS

BIOLOGY *CLASS XI*

राष्ट्रीय शैक्षिक अनुसंधान और प्रशिक्षण परिषद्
NATIONAL COUNCIL OF EDUCATIONAL RESEARCH AND TRAINING

FOREWORD

The National Curriculum Framework (NCF) – 2005 initiated a new phase of development of syllabi and textbooks for all stages of school education. Conscious effort has been made to discourage rote learning and to diffuse sharp boundaries between different subject areas. This is well in tune with the NPE-1986 and *Learning Without Burden-1993* that recommend child centred system of education. The textbooks for Classes IX and XI were released in 2006 and for Classes X and XII in 2007. Overall the books have been well received by students and teachers.

NCF-2005 notes that treating the prescribed textbooks as the sole basis of examination is one of the key reasons why other resources and sites of learning are ignored. It further reiterates that the methods used for teaching and evaluation will also determine how effective these textbooks proves for making children's life at school a happy experience, rather than source of stress or boredom. It calls for reform in examination system currently prevailing in the country.

The position papers of the National Focus Groups on *Teaching of Science*, *Teaching of Mathematics and Examination Reform* envisage that the biology question papers, set in annual examinations conducted by the various Boards do not really assess genuine understanding of the subjects. The quality of questions papers is often not upto the mark. They usually seek mere information based on rote memorization, and fail to test higher-order skills like reasoning and analysis, let alone lateral thinking, creativity, and judgment. Good unconventional questions, challenging problems and experiment-based problems rarely find a place in question papers. In order to address to the issue, and also to provide additional learning material, the Department of Education in Science and Mathematics (DESM) has made an attempt to develop resource book of exemplar problems in different subjects at secondary and higher-secondary stages. Each resource book contains different types of questions of varying difficulty level. Some questions would require the students to apply simultaneously understanding of more than one chapters/units. These problems are *not* meant to serve merely as question bank for examinations but are primarily meant to improve the quality of teaching/learning process in schools. It is expected that these problems would encourage teachers to design quality questions on their own. Students and teachers should always keep in mind that examination and assessment should test comprehension, information recall, analytical thinking and problem- solving ability, creativity and speculative ability.

A team of experts and teachers with an understanding of the subject and a proper role of examination worked hard to accomplish this task. The material was discussed, edited, and finally included in this resource book.

NCERT would welcome suggestions from students, teachers and parents which would help us to further improve the quality of material in subsequent editions.

PREFACE

The Department of Education in Science and Mathematics (DESM), National Council of Educational Research and Training (NCERT), initiated the development of 'Exemplar Problems' in science and mathematics for secondary and higher secondary stages after completing the preparation of textbooks based on National Curriculum Framework-2005.

The main objective of the book on 'Exemplar Problems in Biology' is to provide the teachers and students a large number of quality problems with varying cognitive levels to facilitate teaching learning of concepts in Biology that are presented through the textbook for Class XI. It is envisaged that the problems included in this volume would help the teachers to design tasks to assess effectiveness of their teaching and to know about the achievement of their students besides facilitating preparation of balanced question papers for unit and terminal tests. The feedback based on the analysis of students' responses may help the teachers in further improving the quality of classroom instructions. In addition, the problems given in this book are also expected to help the teachers to perceive the basic characteristics of good quality questions and motivate them to frame similar questions on their own. Students can benefit themselves by attempting the exercises given in the book for self assessment and also in mastering the basic techniques of problem solving. Some of the questions given in the book are expected to challenge the understanding of the concepts of biology of the students and their ability to applying them in novel situations.

The problems included in this book were prepared through a series of workshops organised by the DESM for their development and refinement involving practicing teachers, subject experts from universities and institutes of higher learning, and the members of the biology group of the DESM whose names appear separately. We gratefully acknowledge their efforts and thank them for their valuable contribution in our endeavour to provide good quality instructional material for the school system.

I express my gratitude to Professor Krishna Kumar, *Director* and Professor G. Ravindra, *Joint Director*, NCERT for their valuable motivation and guidance from time to time. Special thanks are due to Dr. B. K. Tripathi, *Professor*, DESM for coordinating the programme, taking pains in editing and refinement of problems and for making the manuscript pressworthy.

We look forward to feedback from students, teachers and parents for further improvement of the contents of the book.

Dr. Hukum Singh
Professor and Head

DEVELOPMENT TEAM

K. Muralidhar, *Professor*, Department of Zoology, University of Delhi, Delhi
Chief Advisor– Biology Textbook Development Committee, NCERT

MEMBERS

CH.A. Ramulu, *Reader* (Botany), Regional Institute of Education, Bhubaneswar
Dinesh Kumar, *Reader* (Zoology), Department of Education in Science and Mathematics, NCERT
P.K. Durrani, *Professor* (Botany), Department of Education in Science and Mathematics, NCERT
Sarath Chandran, *Reader* (Zoology), Sri Venkateswara College, New Delhi
Savithri Singh, *Principal*, Acharya Narendra Dev College, University of Delhi
Seema Bali, *PGT* (Biology), St. Mary's School, New Delhi
Sunita L Varte, *Lecturer* (Botany), Department of Education in Science and Mathematics, NCERT
Sunita Madan, *PGT* (Biology), Salwan Public School, New Delhi
V.K. Kakaria, *Reader* (Zoology), Regional Institute of Education, Bhopal

MEMBER-COORDINATOR

B.K. Tripathi, *Professor* (Zoology), Department of Education in Science and Mathematics, NCERT

ACKNOWLEDGEMENTS

National Council of Educational Research and Training (NCERT) gratefully acknowledges the contribution of all the members who have contributed at different stages in the development of this book. The Council is grateful to all the concerned Heads of the Departments and Principals for deputing their faculty members for this task.

NCERT sincerely acknowledges the contributions of the members who participated in the review of the manuscripts – Ajit Kumar Kavathekar, *Reader* (Botany), Sri Venkateshava College, New Delhi; A.K. Sharma, *Reader* (Zoology), University of Lucknow, Lucknow; Chaitali Dixit, *Asst. Lecturer* (Biology), St. Anthony's (Don Bosco) Hr. Secondary School, Shillong ; Deepti Srivastava, *PGT* (Biology), Sanskriti School, New Delhi; Garima Jha, *PGT* (Biology), Ganga International School, New Delhi; Meenakshi Tawankley, *Retd. Reader* (Botany), Maitreyi College, New Delhi; Shardendu, *Reader* (Botany), Science College, Patna University, Patna; Suman Kumar Singh, *Associate Professor*, College of Fisheries, Dholi, Bihar.

The Council is highly thankful to Hukum Singh, *Professor and Head*, DESM, NCERT for his valuable support throughout the making of this book.

The Council also gratefully acknowledges the contribution of Deepak Kapoor, *Incharge*, Computer Station; Mrs Vaijanti Patankar, Mohd Jabir Hussain, Girish Goyal and Kamal Kumar, *DTP operators*; Abhimanu Mohanty, *Proof Reader*; APC office and administrative staff of DESM, NCERT

The efforts of the Publication Department, NCERT in bringing out this publication are also appreciated.

PREFACE

v

EXEMPLAR PROBLEMS, ANSWERS AND MODEL PAPER 1-167

Chapter 1	: The Living World	1
Chapter 2	: Biological Classification	6
Chapter 3	: Plant Kingdom	10
Chapter 4	: Animal Kingdom	14
Chapter 5	: Morphology of Flowering Plants	21
Chapter 6	: Anatomy of Flowering Plants	27
Chapter 7	: Structural Organisation in Animals	33
Chapter 8	: Cell: The Unit of Life	38
Chapter 9	: Biomolecules	43
Chapter 10	: Cell Cycle and Cell Division	49
Chapter 11	: Transport in Plants	54
Chapter 12	: Mineral Nutrition	63
Chapter 13	: Photosynthesis in Higher Plants	68
Chapter 14	: Respiration in Plants	77
Chapter 15	: Plant Growth and Development	84
Chapter 16	: Digestion and Absorption	91

Chapter 17	: Breathing and Exchange of Gases	96
Chapter 18	: Body Fluids and Circulation	101
Chapter 19	: Excretory Products and their Elimination	108
Chapter 20	: Locomotion and Movement	114
Chapter 21	: Neural Control and Coordination	119
Chapter 22	: Chemical Coordination and Integration	123
Chapter 23	: Answers to Multiple Choice Questions	129
Chapter 24	: Model Answers to Descriptive Questions	133
Chapter 25	: Model Question Paper	156
