## NCERT Solution

by broadcasting services. Matches played at one place can be viewed worldwide which resulted in its popularity as well as finance.

**Ans5:** Cricket is popular mostly in the colonial countries of British empire not the sovereign countries. India was only the part of the British empire not the China or Russia. Therefore, Cricket has large viewership in India, not in China or Russia. Moreover, TV companies have created a global market for cricket in India.

**Ans6:** The things which are necessary for playing the game are game's (cricket) 'equipment'. Like in cricket, ball, bat, wicket, helmets, gloves, pads are the requires things to play the match.

**Page No: 149**

**Ans7:** Test Game is Unique in the sense that even though it is played for five days, it ends in a draw. No other modern team sport takes even half as much time to complete.

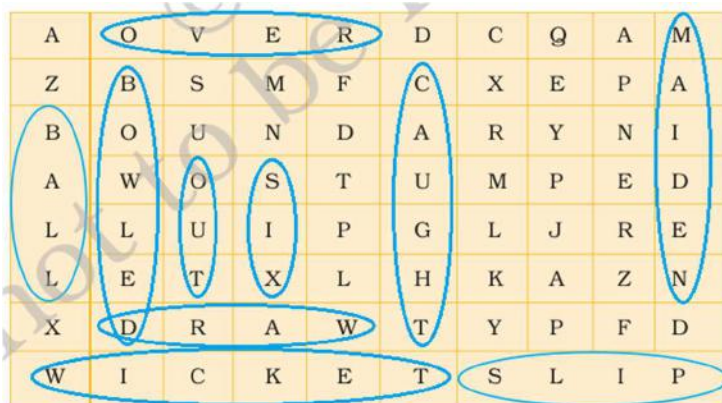

**Ans8:** Cricket is different from other team games because it goes on for a longer time than any other games. It also has different formats like Test Cricket, One-day International and T-20 match and each game takes different time to get completed. Another a strange feature of Cricket is the playground that it can be of any size, only the length of the pitch is specified while in other games the dimensions of the playing area is specified.

**Ans9:** After the advancement of technology, players started wearing more protective equipment. The invention of vulcanized rubber made possible the use of pads. Satellites helped in increasing the popularity and audience of cricket. One can now watch live matches while sitting at home. Technology also helped in taking fair decisions while playing the game.

**Ans10:** With the change of time, technology get more advanced and players started wearing protective equipment. Earlier the bat was made of one piece, today it has a separate blade and handle. Decisions became more fair with motion sensor cameras. But still, both bat and ball are handmade, not industrially manufactured.
