Don't be Afraid of the Dark

Don't be afraid of the dark, little one,
The earth must rest when the day is done.
The sun must be harsh, but moonlight – never!
And those stars will be shining forever and ever,

Be friends with the Night, there is nothing to fear,
Just let your thoughts travel to friends far and near.
By day, it does seem that our troubles won't cease,
But at night, late at night, the world is at peace.

– Ruskin Bond

Don't Give Up

If you keep on going
And never stop,
You can keep on going,
You can make it to the top.
Life is full of mountains,
Some are big and some are small,
But if you don't give up
You can overcome them all.
So keep on going
Try not to stop,
When you keep on going
You can make it to the top.

*Look at the picture and describe it.
Why do you think the boy is happy?*

Helen Keller

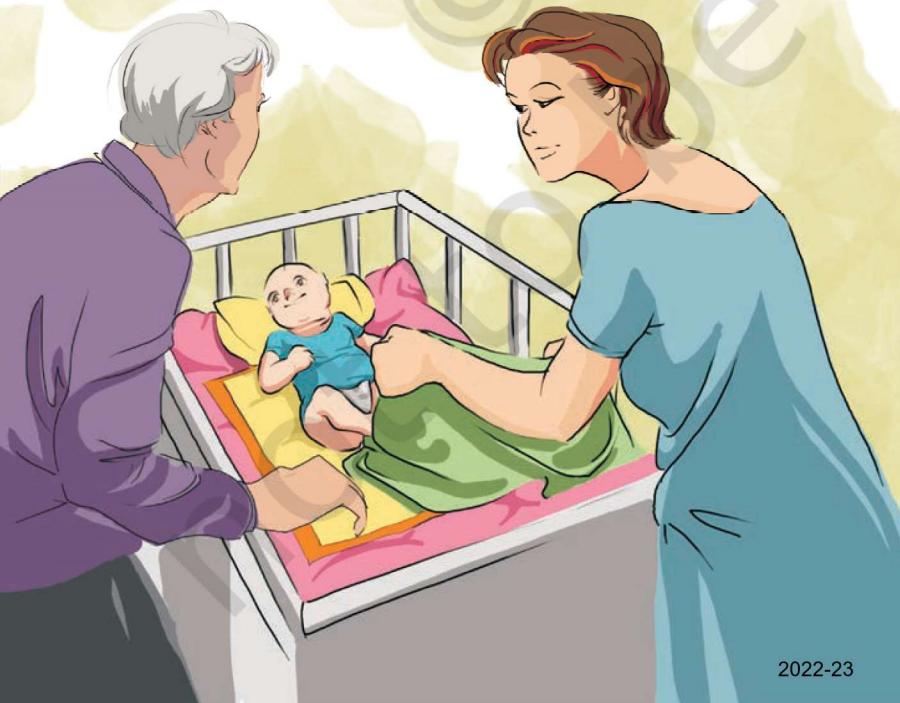

It was the summer of 1880. A healthy baby girl was born in a small town in Alabama. Her parents loved her dearly and named her Helen Keller. But one day, the baby became ill and day after day, her fever stayed high. Everyone in the family tried to help her to get better, but all they could say was, "There is nothing more we can do. The baby may not live."

Helen lived. But she was not the same after her illness. "Something is very wrong," her mother said. At last they found out what was wrong. The child could not see or hear.

The baby grew into a little girl. Her parents felt sorry for her. Helen often cried and held on to her mother. "Give the poor child what she wants," her father would say.

Though Helen could not hear or see, she was a bright little girl. Some people thought Helen could not learn anything. Her mother did not agree. "Helen is very smart," she said and added, "the problem is, how can we reach her? She is locked up inside herself."

Helen began to grow wild. She would not let anyone comb her hair. Her clothes

were always dirty. She was often angry. Sometimes she even lay on the floor and kicked her feet.

Her parents thought that they should find a teacher for her. Miss Sullivan, a young teacher agreed to help Helen to learn to see the world. Miss Sullivan gave Helen a doll. "D_O_L_L" spells doll. She spelt the word with her fingers into Helen's hand. She made the letters with special hand signs.

Helen copied her teacher and spelt D_O_L_L too, but she did not understand what she was doing. Helen liked Miss Sullivan. She was strict but kind. She spelt a lot of words for Helen, on her hand, day and night, to make Helen understand.

One day, her teacher made Helen put her hand into running water. Then, she spelt W_A_T_E_R. Suddenly Helen understood that W_A_T_E_R meant something wet, running over her hand. She understood that words

were the most important things in the world. Words would tell her everything she wanted to know.

Unit 5

THEMES

Respecting differences
People around us

Poem : **Don't be Afraid of the Dark**
Story: **Helen Keller**

This Unit is about sensitising children to the world around them, in terms of their thoughts about fear of night, darkness etc. It is also about 'differences' in children which emerge due to certain individual needs that may affect their learning styles.

Warm up

A blindfold game where simple, 'catch-the-thief', 'follow-the-leader' games, can be initiated, to give children a sense of joy and participation in the process of developing sensitivity towards others.

Opportunities need to be given to all children and their specific abilities need to be recognised and appreciated. This includes children with disabilities, who may need assistance or more time to complete tasks.

Reading time

1. By this Unit you can now involve the children in silent reading of the lessons before you actually start reading aloud to them. Identify a few children who could initiate a reading session for the others. The bottom line for this Unit should be how to involve the entire class into reading, listening and answering queries.
2. A small classwise competition within the school can be initiated.

Sharing time

1. Involve the children in sharing what they have felt during warm up time.
2. A chart about difficulties that children have in terms of their fears, *I don't like, I can't do* can be put up in the class.

The idea is not only to make children do things but also to hear and understand what they feel they can't do. This feedback will work to sensitise you with their individual needs.

Creative time

1. Emphasise on similar sounding words with different spellings e.g. bee/be, son/sun and other words given in the text.
2. Rhyming words can also now be introduced and children can be encouraged to create their own little poems using rhyming names in the class (names of children /name of things in the classrooms) in alphabetical order. These can be put on a chart and children can then make a class rhyme.

Language corner

1. The chart above can form the central point of the language corner.
2. Children can be subtly involved in making written presentations about their thoughts, feeling and ideas about this Unit.
3. Assessment of the class based on reading, listening, writing can now start with each child getting a feedback.

Environment

Issues related to the class, like using less paper should now be focused upon.
